TIRE PROTECTION PLAN

Nationwide Limited Warranty Program Information

Tire Safety and Treadwear Recommendations:

- Check tire pressure regularly (at least once a month), including the spare.
- Inspect tires for uneven wear patterns on the tread, cracks, foreign objects, or other signs of wear or trauma.
- Remove bits of glass and other foreign objects wedged in the tread.
- Make sure your tire valves have valve caps.
- Do not overload your vehicle. Check the tire information placard or owner's manual for the maximum recommended load for the vehicle.
- If you are towing a trailer, remember that some of the weight of the loaded trailer is transferred to the towing vehicle.
- Rotate tires regularly.

**For Warranty Service or
Flat Tire Changing Assistance**
